EDUCATION

Cornell University, Ithaca, NY | **GPA: 4.00**

Expected May 2028

B.A. in Computer Science & Cognitive Science, Minor in Artificial Intelligence

Relevant Coursework: Data Structures & Algorithms, Backend Development, Functional Programming, C++ Programming, Discrete Mathematics, Linear Algebra, Data Science, Android Development

PROFESSIONAL EXPERIENCE

SeaBridge Sustainability

May 2025 – Sep 2025

Software Engineer Intern

Seattle, WA

- Co-led 8-person team to deliver MVP of an enterprise RAG platform automating ESG reporting
- Architected scalable, low-latency data ingestion pipeline using AWS (Lambda, S3, API Gateway), FastAPI, and MongoDB, processing 200+ GB monthly with 99.9% uptime
- Shipped 5 LangGraph AI agents for data extraction and analysis, saving 400+ analyst hours annually

Cornell GreenClub

Feb 2025 – Present

Software Developer

Ithaca, NY

- Built TypeScript/Next.js route optimization [platform](#), cutting CO₂ emissions by 10+ tons/year
- Led user-centered design with 15+ stakeholder interviews/case studies, boosting adoption by 40%

TECHNICAL PROJECTS

Big Red Beli

Apr 2025 – May 2025

- Developed, containerized, and deployed dining review [backend](#) (Flask, SQLAlchemy, Docker, GCP)
- Designed 4 relational database models and 20+ RESTful APIs, reducing average query time by 35%

Pac-Man

Apr 2025 – May 2025

- Built Pac-Man with elevation-based AI pathfinding, achieving 67% win rate over 1,000 simulations
- Implemented Dijkstra's and custom priority queue in Java, cutting decision latency 68ms to 35ms

GymCrowd

Oct 2024 – Dec 2024

- Engineered real-time [gym tracker](#) (Kotlin, Jetpack Compose, MVVM) to reduce peak-hour congestion
- Integrated custom APIs and optimized data handling to support 500+ concurrent sessions under load

TECHNICAL SKILLS

- **Languages:** Python, Java, C++, SQL, OCaml, TypeScript, JavaScript, Kotlin
- **Frameworks:** FastAPI, Flask, SQLAlchemy, LangGraph, React, Next.js, Tailwind CSS, JUnit
- **Technologies:** AWS (Lambda, S3, API Gateway), Docker, GCP, MongoDB, Git, Linux, Postman
- **Concepts:** Cloud Computing, Machine Learning, Full-Stack Development, Agile Development

LEADERSHIP & INTERESTS

- **Team Captain**, Cornell Men's Club Water Polo – Led strategy and training; New York State MVP
- **Ocean Lifeguard** – Safeguarded 3,000+ daily beachgoers; trained and mentored 18 junior lifeguards
- **Founder**, Kamira – Wrote, produced, and marketed full-length music [album](#); 1,000+ streams
- **Interests** – Surfing, Rock Climbing, Hiking, Travel, Reading, Metal Music, Sustainability
